

Carrick

IT Intern

Profile

I am a Final Year Student in HELP University seeking more experience in IT field.

I'm very interested in [Blockchain] and [Web 3] technologies as i believe that it will replaces the fiat economy system in the world. Aside from Blockchain, i'm also very eager to level up my skill and experience in [Apps Development] such as [Flutter], [Android Studio] and even [Game Development] like Unity.

On technical aspect, the most comfortable Programming Language that i use is Java as i have make some projects using [Android Studio] and [Java] as the Programming Language, where similar to Java I'm also comfortable to code on [C#] as it similar to [Java]. Other than that i can code in [Python] , [C / C++] , [JavaScript] , [HTML + CSS + PHP] .

In other hand on Back End programming, i experienced in using [Firebase] as all my previous website and app creation using all service provided by [Firebase] such as FireStore, Storage Hosting, Authentication, etc.

In outside aspect of technical, i also like to perform beatbox at stage and also Music Production using [FL Studio] and [Voicemeeter], and my best quality is love to improvises at all times where I'm comfortable at answering questions that out of script when doing presentation.
